

Point of Presence (POP) (Applies to bases without server farms)

1. Server farms will not be constructed at all bases. Some bases will have communications equipment installed to transmit signals from the desktop computers to the servers located at a remote facility. This communications equipment is known as a Point of Presence (POP). POPs will require permanent space for the equipment. The ideal space will be near the site's existing main point of entry for telecommunications infrastructure.

Site Size in Seats	Area Required- Unclassified	Area Required- Classified	Racks-Unclassified	Racks- Classified
Up to 48	60sf	60sf	1	1
49 – 100	80sf	80sf	2	2
101-200	200sf	200sf	5	5
201 – 1000	280sf	280sf	7	7
1000 +	360sf	360sf	9+	9+
